## MEDICATION REFILL POLICY

When there is the need for medication refills, please see the following steps:

1. **CALL YOUR PHARMACY** and request a refill, even if there are no refills left on your bottle. The pharmacy will fax a refill order to our office that we will reply to.
2. Allow 24 hours for the above process to be completed. Please call for your refills in advance so that you do not run out of medication.
3. Written prescriptions need to be requested 48 hours in advance.

Please do *not* call our office to check on the status of a prescription refill, call your pharmacy.

Keep this page for your records.

I have read the instructions for medication refills and understand that there is a 24 hour notification.
